MAP DATA SD-CARD

Map SD Card Replacement

Thank you for purchasing the updated map data. Please replace the Map SD card currently in your navigation system with the enclosed Map SD card by using the following procedure.

Procedure

- ❶ Before turning on the vehicle, you must remove the old SD card and insert the new SD card. This process must be done while the vehicle is turned off.
- ❷ Remove the SD card by pushing in on the SD card in the slot labeled “SD Map”. It will then pop out of the SD slot.
 - a. SD slot is located on the radio faceplate. Please see your owner’s manual for location.

- ❸ Insert the new SD card from your map update package.
- ❹ Turn on the vehicle. The Nav System will recognize the new SD Card and begin the update. If a message displays, select “update.” When complete, the system will reboot.

Note: If you receive an error message indicating “No SD card inserted”, please follow the steps below:

- Turn off vehicle, remove key from ignition, and open the driver’s door.
- Wait 10 seconds, then close door.
- Remove, then re-insert the new SD card.

- ❺ **Note:** Some vehicles will not require this step.

Following the on-screen prompts, you will go through a second software update. The system will then reboot when complete.

The old SD card can be reformatted and used in your personal devices.
